

# Anderson Radio Club Two-Meter Net Preamble

---

CQ CQ CQ to the Anderson 2-Meter Net. Your net control tonight is **YOUR CALL**. My name is **YOUR NAME** and my location is **YOUR LOCATION**.

This net is sponsored by the Anderson Radio Club and is called nightly at 8:30 PM. For information about the club or the net, please go to [www.AndersonRadioClub.com](http://www.AndersonRadioClub.com). Are there any stations holding traffic or announcements for the net? If so, please call **YOUR CALL**.

## **STAND BY:**

This is a directed net. Please check-in in your proper alphabetical group and direct all comments to **YOUR CALL**. Also when you check-in, please call Net Control and release the PTT button and listen to ensure no one else has called at the same time you have. Then, *SLOWLY* proceed with your call name, location, and indicate whether you have traffic and will remain for the rag chew. We also ask that you remain on frequency through the formal portion of the net, should your station be needed to pass traffic.

At this time, is there a station willing to act as an alternate net control operator?

## **STAND BY:**

Tonight being **NIGHT OF WEEK** night, we will begin with **GROUP**.

Please call **YOUR CALL** Net Control now.

(After 1<sup>st</sup> Alphabetical group switch. Then ask for check-ins all the way through the alphabet.)

This concludes the formal portion of the net.

We will now begin the rag chew portion of the net with periodic stops for late check-ins. All stations wishing to secure may do so at this time.

I would like to thank each of the **NUMBER OF CHECK-INS** stations that checked in with me tonight. I hope each of you will return each night for this net held at 8:30 PM.

Good evening, God Bless, and 73s to everyone.

This is **YOUR CALL** now returning the repeater back to normal amateur use.

**NET MANAGER CALL SIGN**, this net report is for the night of **MM/DD/YY** & is Traffic # **YOUR TRAFFIC** #.
